

### EXPERIENCES

#### UX and Product Design Intern

Aug 2021 - Oct 2021

##### Anti-Trafficking International

Fairfax, VA

- Designed prototypes for organization's site redesign, including a mockup of an interactable map
- Produced four projects and presented to organization's executive board
- Conducted research alongside higher-ups on ATI's website statistics

#### UX/UI Designer

Nov 2021 - May 2022

##### theCourseForum

Charlottesville, VA

- Formulated and modified a site used by thousands of UVA students and faculty to browse classes
- Revised and discussed among peers changes to increase site traffic
- Proposed numerous redesigns to modernize and improve user experience

#### Historian

May 2021 - Present

##### Korean Student Association at UVA (KSA)

Charlottesville, VA

- Recorded and photographed KSA events to post on social media pages, liked by roughly 1100 people
- Edited photos and videos using Adobe Lightroom, Photoshop, Audition, and Premiere

### COURSES AND TRAINING

#### Google UX Design Professional Certificate

May 2022 - Oct 2022

##### Coursera

Fairfax, VA

- Learned the step by step process of UX design through a rigorous seven course program
- Learned all aspects of UX, including design fundamentals and research planning

#### UX Summer Training Program

May 2021

##### Forge

Charlottesville, VA

- Developed a greater understanding of UX research and UI design through hands on projects
- Collaborated with group members to produce and present polished projects to instructors
- Received invaluable critique to further enhance my abilities

As a low income first generation student with parents who struggle with tech and page navigation, I strive to produce designs that are accessible and intuitive for all
