### Cantonese

### Mandarin

### Japanese

## EXPERIENCE

### Volvo Group

UX/UI Analyst

May 2023 - Present

Greensboro, NC

- Lead Designer for PartsASIST redesign, a Volvo backed e-commerce B2B website that connects dealerships with automobile parts
- Facilitated weekly design meetings alongside the product owner of PartsASIST, discussing progress and further goals
- Properly communicated and prioritized realistic requirements to developers, finding appropriate compromises that can be feasibly accomplished
- Produced additional finalized designs for various other projects as well as exploring new templates such as Adobe Franklin

### UniFeed

Product Designer

Sept 2022 - Apr 2023

Charlottesville, VA

- Redesigned UniFeed's mobile app in order to instill it with modernized designs and a fresher overall feel for the user.

### theCourseForum

UX/UI Designer

Nov 2021 - May 2022

Charlottesville, VA

- Proposed numerous designs to modernize and improve the user experience of tCF, a site used by 80% of UVA students and faculty to browse classes
- Consulted with peers for feedback and rapidly iterated prototypes to resolve them.

### Anti-Trafficking International

Product Designer

Aug 2021 - Oct 2021

Fairfax, VA

- Designed prototypes, totalling four projects, for organization's site redesign, including a mockup of an interactive map
- Collaborated with leadership in developing a roadmap for the organization's future website redesign

## COURSES AND TRAINING

### UVA Forge

UX Summer Training Program

May 2021

Charlottesville, VA

- Developed a greater understanding of UX research and UI design through numerous hands on projects
- Collaborated with peers to produce and present polished projects to instructors

### Coursera

Google UX Design Professional Certificate

May 2022 - Oct 2022

Fairfax, VA

- Learned the step by step process of UX Design through a rigorous seven course program
