EXPERIENCES

UX and Product Design Intern   Aug 2021 – Oct 2021
Anti-Human Trafficking International   **Fairfax, VA**

- Designed prototypes for organization's site redesign, including a mockup of an interactable map
- Produced four projects and presented to organization's executive board
- Conducted research alongside higher-ups on ATI's website statistics

UX/UI Designer   Nov 2021 – May 2022
theCourseForum   **Charlottesville, VA**

- Formulated and modified a site used by thousands of UVA students and faculty to browse classes
- Revised and discussed among peers changes to increase site traffic
- Proposed numerous redesigns to modernize and improve user experience

Historian   May 2021 – Present
Korean Student Association at UVA (KSA)   **Charlottesville, VA**

- Recorded and photographed KSA events to post on social media pages, liked by roughly 1100 people
- Edited photos and videos using Adobe Lightroom, Photoshop, Audition, and Premiere

COURSES AND TRAINING

Google UX Design Professional Certificate   May 2022 – Sept 2022
Coursera   **Fairfax, VA**

- Learned the step by step process of UX design through a rigourous seven course program
- Learned all aspects of UX, including design fundamentals and research planning

UX Summer Training Program   May 2021
Forge   **Charlottesville, VA**

- Developed a greater understanding of UX research and UI design through hands on projects
- Collaborated with group members to produce and present polished projects to instructors
- Received invaluable critique to further enhance my abilities

---

As a low income first generation student with parents who struggle with tech and page navigation, I strive to produce designs that are accessible and intuitive for all
